**SUBJECT:** Discuss for Adoption Resolution No. 14-719-05, a Resolution Adopting John Day's Representation in the Updates to the Northeast Oregon Regional Natural Hazards Mitigation Plan

Attachments:

- Resolution No. 14-719-05
- Pre-approval letter from FEMA

**BACKGROUND:**

The Natural Hazard Mitigation Plan was developed (2008) and updated (2014) through a regional partnership funded by the Federal Emergency Management Agency's Pre-Disaster Mitigation Competitive Grant Program. The Northeast Oregon Regional grant was awarded to support the development of a multi-jurisdictional (Baker, Grant, Union, Wallowa Counties) natural hazard mitigation plans for the region. The region's planning process utilized a four-phased planning process, plan templates and plan development support provided by the Oregon Natural Hazards Workgroup at the University of Oregon.

The City of John Day has fully participated in the FEMA prescribed mitigation planning process to prepare the NHMP, which has established a comprehensive, coordinated planning process to eliminate or minimize the threat that natural hazards pose to people, property and infrastructure. Due to the size of the NHMP (716 pages), I did not print out the plan. However, you can find the final updated plan on the web at <http://csc.uoregon.edu/opdr/current/easternoregon/northeast>.

Each organization within the plan is responsible for adopting the Northeast Oregon Natural Hazards Mitigation Plan. The Northeast Oregon Regional NHMP 2014 update is pre-approved by FEMA pending adoption. Please see the attached pre-approval letter from FEMA. Attached is the City of John Day's resolution to adopt the updates to the Northeast Oregon Regional Natural Hazards Mitigation Plan.

**RECOMMENDATION:**

Adoption of the Natural Hazards Mitigation Plan is required as a condition of future funding for mitigation projects under multiple FEMA pre- and post-disaster mitigation grant programs. I recommend the John Day City Council adopt Resolution No. 14-719-05.
