Subject: Provisional Award
Date: Tuesday, December 7, 2021 3:32:29 PM

Dear Applicant,

John Day Innovation Gateway Adaptive Water Reuse

The Water Resources Commission met on December 3, 2021 to make a funding award decision on applications to the 2021 Water Project Grants and Loans funding opportunity. Your project application was provisionally awarded, subject to available funding by the Water Resources Commission. Congratulations!

What this means for you-

Future actions will include the Department sending you a funding award letter in early 2022 and begin drafting a grant agreement. Approval for your grant is subject to funding becoming available based on a scheduled May 2022 lottery bond sale. Once the lottery bond sale occurs and funding is available, the Department will provide you with a grant agreement for your review and signature. In preparation, you may view an [example grant agreement here](#) and we encourage you to become familiar with the terms and conditions. Feel free to reach out with any questions.

In the meantime, we also suggest you review the Budget Procedures and Allowable Cost document to familiarize yourself with the costs eligible for reimbursement with grant funds. **This document and other resources are located on the Water Project Grants and Loans [Applications, Forms and Guidance](#) webpage.**

In the event that you are beginning work on your project using match funds before your grant is executed, please refer to our [Fact Sheet: Understanding & Reporting Match Funds](#) for information. Please be aware that no expenses may be incurred for reimbursement with grant funds before the grant is fully executed.

We look forward to supporting you as you implement your project! If you have any questions about the evaluation process please contact WRD_DL_waterprojects@oregon.gov or call me at 503-509-7938.

Sincerely,
Becky

-
