Financial Summary

The Grant amount is initially calculated based on Grantee’s estimate of the total Planning Costs. Agency will withhold the final payment of the estimated grant funds, up to 100 percent, until submission of the Final Report. Upon receipt of the Final Report, Agency will recalculate the Grant amount using actual Planning Costs, and Agency’s disbursement of the Grant Monies may be reduced as a result. So that Agency may calculate the disbursement, provide the following information:

Actual Total Planning Cost: \$
(replaces the “Estimated Planning Cost” from Grantee’s application)

Other Government Incentives & Grants Available: \$
(directly related to the Project; not including this Grant; identify source(s) and amount(s))

EXHIBIT D**Financial Reporting Guidance**

Promptly following completion of the project planning, the Grantee must submit an account of total Planning Costs that identifies all funding sources and includes all receipts, paid invoices, cancelled checks (if applicable), and bank loan or promissory note documentation. It should also include an itemized list of equipment and incurred Planning Costs. If they pay property taxes, Grantee must also provide proof that Grantee or owner of the Project location, if other than Grantee, is current on the property taxes for the Project's location. If the total Planning Costs are \$50,000 or more, Grantee must include an independent Certified Public Accountant's attestation to the validity and accuracy of the account. The following guidance is intended to help Grantee comply with these requirements.

A. Total Planning Costs (Grantee should provide this guidance to the Certified Public Accountant responsible for verifying cost and payments.)

"**Planning costs**" means the costs related to planning paid by an applicant described under Oregon Laws 2021, chapter 508, section 30.

To verify the total Planning Costs that received a Community Renewable Energy Program (CREP) grant from the Oregon Department of Energy, you must be a Certified Public Accountant with a current license who is **NOT** an employee or affiliate of the Grantee or a partner listed on the grant application.

Obtain the following documents to complete your verification:

- A copy of the Grantee's Performance Agreement (the project planning must comply with all conditions of the Performance Agreement).
- All receipts, paid invoices, cancelled checks (if applicable), and bank loan or promissory note documentation that pertains to planning the Project.
- A copy of the applicable Oregon Administrative Rules (OAR). The permanent rules related to Community Renewable Energy Program grants can be found here:
<https://secure.sos.state.or.us/oard/displayDivisionRules.action?selectedDivision=6901>

Verify and document the following information:

- The actual total Planning Costs (regardless of whether the costs are eligible for CREP grants).
- The actual total **eligible** Planning Costs. These are the costs that concur with the "Project Description" in the Performance Agreement and that are eligible costs according to [OAR 330-250-0050](#).
- The total amount of the payments made by the Grantee.
- An itemization of all financial incentives and grants received for planning the Project by the Grantee or any affiliate (e.g., utility incentives, Energy Trust of Oregon incentives, federal tax credits, grants, etc.).
- The planning completion date. This is the date on which the planning document was completed.
- The date the planning was paid for in full (paid outright or loan contracts were fully executed).

B. Property Tax Status. If they pay property taxes, provide proof that Grantee or owner of the proposed Project's location, if other than Grantee, is current on the property taxes for the Project's location. This can be provided in the form of a receipt or statement indicating no balance is due.
