Development shall not commence until the applicant has received all of the appropriate land use and development approvals (i.e., site design review approval) and building permits. Construction of public improvements shall not commence until the City has approved all required public improvement plans (e.g., utilities, streets, public land dedication, etc.). The City may require the applicant to enter into a development agreement (e.g., for phased developments and developments with required off-site public improvements), and may require bonding or other assurances for improvements, in accordance with Section 5-4.2.070. Development Review and Site Design Review approvals shall be subject to all of the following standards and limitations.

Development Review and Site Design Review approvals shall be effective for a period of one (1) year from the date of approval. The approval shall lapse if a public improvement plan or building permit application has not been submitted within one year of approval or construction on the site is in violation of the approved plan. An extension may be requested in compliance with chapter 5-4.2.080 of the city development code.
